

YOUR **TRUSTED PARTNER** FOR
WORK TRUCK SOLUTIONS

SELF-LOADING TECHNOLOGY

ONE LESS AXLE

WORKSHOP ON WHEELS

SAFE & EFFICIENT

LOAD. HAUL. AND UNWIND.

The RT Bed is an efficient, self-loading reel lift designed to load and transport utility wire or fiber cable without the need for a trailer. Simply lift and load innerduct reels, hand holes, frame poles and more utilizing this one-man operation. Streamline your operation and save time spent hauling reels from yard to jobsite with limited trailer mobility.

A workshop on wheels, the DewEze Reel Transport Bed helps you do more with less, facing the work day head-on. Engineered with heavy-duty steel construction and trouble-free performance, you'll have peace of mind knowing DewEze beds are backed by superior service. Building beds that last and hold their value, that's durability.

REEL TRANSPORT BED CORE COMBINATIONS

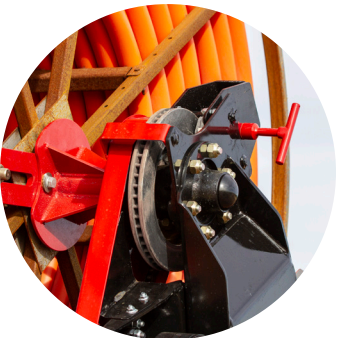

RISERS & REEL BAR

Equipped with a pair of risers, lift bar and dual lift cylinders, the DewEze Reel Transport easily loads and unloads up to 3,100 lbs.

SPINDLE SYSTEM

The hydraulically controlled arms, reaching from 28 to 53 inches, eliminate the need for an arbor to get a grip on a range of spools.

OVERSPIN BRAKE

Get more control with the spindle system and integrated brake to prevent backlashing while pulling, up to 500 lbs. of drag.

REEL POWER

Reduce manpower to safely take up or payout cable or fiber hydraulically with this variable speed, removable accessory.

ACCESSORIES

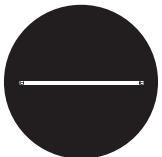

TOOLBOX STORAGE

Stow and tow with under/above body and across-the-bed storage, offering easy access to the recessed gooseneck ball.

WORK LIGHTS

Don't get caught in the dark - plug and play a fixed or swing light kit to light the way for a safer work environment.

TOOL CIRCUIT

Maximize your hydraulic system productivity by simply tapping into the bed's tool circuit for a versatile power solution.

EXTENDED HEADACHE RACK

Keep cargo from crashing through the cab rear window with this high-profile design, built to stand up to daily wear and tear.

ENGINEERED

for you, delivering dependable performance

ARE YOU READY TO GET ROLLING?

“Operating a DewEze RT Bed is one less axle to worry about. It’s the most efficient work truck you can put in your fleet.”

*Mike Olberding - Operations Manager
DS&O Electric Coop, Solomon, KS*

“The Parallel Squeeze functionality gives us the flexibility to haul a variety of reels - from one large reel to two small.”

*Ron Farnsworth - Owner
Farnsworth Fabrication, Altonah, UT*

“RT beds are a money saver - handier than a pocket on a shirt!”

*David Russell - Fleet Manager
Liberty Utilities, Joplin, MO*
